TRAINING & BENEFITS

On-Site Training

Before a guard works your post, we walk the property with them. Layout, access points, the spots that tend to cause trouble. They know the site before day one.

Ongoing Training

Sites change. We keep training our staff to handle what comes up and to fix anything that slips during the contract.

Fast-Track Training

Need coverage soon? Our experienced officers run a tight orientation and step in quickly, without skipping the basics.

Law-Enforcement Coordination

If a guard sees a crime, they call police right away. At sporting or international events they coordinate with local and federal authorities and follow their lead.

05 SUPERVISION & PERFORMANCE GUARANTEES

Good security comes down to supervision and honest review. Here is what your contract with us locks in.

01 Surprise inspections, day or night

Our supervisors drop in unannounced during any shift or event. Every guard on duty gets watched and reviewed.

02 We answer, around the clock

If a guard is not cutting it, tell us. A supervisor picks up any hour, any day, for any comment or complaint.

03 We fix problems fast

A training gap gets corrected and the guard goes on probation. If it happens again, that guard is replaced.

04 Coverage you can count on

An on-call supervisor coordinates with your team around the clock, emergencies included. We run periodic drills so everyone knows their part.
